Period	Modern (18th Century)		
Phase	Early Modern: Knights of St John (18th Century)		
Cultural Heritage Type & Value	Historical Architectural Archaeological	Cultural Heritage Property Value Assessment	Outstanding
Property Function	Fortifications	Conservation Area	

Outline Description	Coastal entrenchment remains
Property Description	A stretch of consumed ashlar wall survives in an area that seems to have formed part of a coastal entrenchment. The short stretch of partially-buried wall appears to have the typology of an eighteenth-century entrenchment. However, historical documentation is lacking and the site requires archaeological investigation to determine its exact nature and status.
