<b>Property Description</b>	The chapel was built in 1750 by the Marquis Neriku Testaferrata. The facade is characterized by a rectangular doorway set within a heavy masonry framework with decorative cornice and pilasters, and a moulded cornice supported on corbels above. The doorway masonry work extends vertically to include a coat-of-arms and a rectangular window. At the corners the facade is framed by two decorative Corinthian columns which support a heavy cornice which runs horizontally through the entire facade. Centrally placed on top of the cornice is a medallion of the Madonna holding the infant Jesus, set within a set of floral decorated pilasters which support a heavy semicircular pediment.
